

# Green Airport Fleets Workshop Overview & Objectives

**Steven Sokolsky**  
**January 26, 2010**

# Background

- California Airports Clean Air Vehicle Working Group established in 2007 by SFO – includes all major commercial airports – SFO, OAK, SJC, SMF, FAT, LAX, SAN
- Aim is to share information & best practices, collaborate on common funding opportunities
- CALSTART brought in as advisor in 2008
- Group awarded 2008 US EPA DERA grant for vehicle retrofits & replacements, another grant application pending
- Intent is to conduct stakeholder workshops on a regular basis

# Who is Represented Here Today

- Airport staffs & reps
- Local, Calif. & federal regulators and funders
- Vehicle mfr's & vendors
- Fuel and infrastructure suppliers
- Retrofit device suppliers
- Airlines
- Licensees
- Tenants
- Concessionaires

# Your Learning Objectives for Today

- What are the relevant regulations & mandates – statewide & at each facility
- What technology options are available to fleets
- Where are the potential funding opportunities
- Which resources are available to fleets to help with compliance
